

Treasury management policy statement

Background

The Council adopts the key recommendations of the CIPFA's Treasury Management in the Public Services: Code of Practice (the TM Code), as described in Section 5 of the TM Code.

The Council will create and maintain, as the cornerstones for effective treasury management:

- a treasury management policy statement, stating the policies, objectives and approach to risk management of its treasury management activities
- suitable treasury management practices (TMP's), setting out the manner in which the Council will seek to achieve those policies and objectives, and prescribing how it will manage and control those activities

CIPFA requirement

The Council is required to adopt the following to define the policies and objectives of its treasury management activities.

1. The Council defines its treasury management activities are:

“the management of the Council’s investments and cash flows, its banking, money market and capital market transactions; the effective control of the risks associated with those activities; and the pursuit of optimum performance consistent with those risks”

2. The Council regards the successful identification, monitoring and control of risk to be the prime criteria by which the effectiveness of its treasury management activities will be measured. Accordingly, the analysis and reporting of treasury management activities will focus on the Council's risk implications, and any financial instruments entered into to manage these risks
3. The Council acknowledges that effective treasury management will provide support towards the achievement of its business and service objectives.
